ABOUT

Buying.
Selling.

J TECH FA buys and sells industrial automation parts.

We deal primarily in new, unopened parts. Opened and used items are described one by one.

BUSINESS

What We Do

BUY PARTS

Buying from us

Tell us the FA part you need. We check stock and condition and get back to you.

What to tell us

Full model number · Quantity

SELL YOUR PARTS

Selling to us

Send us your surplus stock and unused parts. We tell you whether we can buy them and at what price.

What to tell us

Model · Quantity · Condition · Photos

PRODUCTS

Product Range

01
PLC CPU

02
Communication · I/O Modules

03
Servo Drives

04
Servo Motors

05
Inverters

06
Touch Panels

Not on the list? Send us the full model number and we will check.

CONDITION

Condition Grades

New, unopened parts are our focus. Everything else is described by its own condition.

UNOPENED · MAIN

Unopened

New, packaging never opened

OPENED

Opened

Packaging has been opened

NO BOX

No Box

Unit only, without the box

USED

Used

Previously used

Condition differs item by item. Ask and we will confirm it for that item.

PRINCIPLES

How We Work

01

Full model numbers

We never shorten or omit any part of a model number.

02

Condition per item

Unopened, opened, no box or used: stated for each item.

03

Confirmed facts only

Stock, condition, price and lead time: only what we have confirmed.

BUY PARTS

How to Buy

STEP 01

Inquire

Call, text or email us the full model number and quantity.

STEP 02

Check

We check stock and condition.

STEP 03

Reply

We reply with details and a quote.

STEP 04

Deal

If the terms suit you, we proceed.

TO INQUIRE **Just two things: full model number + quantity.**

SELL YOUR PARTS

How to Sell

STEP 01

Send list

Send model, quantity, condition and photos.

STEP 02

Review

We check whether we can buy.

STEP 03

Offer

We tell you if we can buy, and the price.

STEP 04

Purchase

If the terms suit you, we buy.

TO INQUIRE **Send model + quantity + condition + photos by text or email.**

MODEL NUMBER

Checking the Model Number

01 Read the model number to the last character from the nameplate or box label.

02 Servo motors and servo drives sound alike but are different products.

03 For PLCs, tell us whether it is a CPU or a communication / I/O module.

EXAMPLE

Digital Input Module

6ES7131-6BH01-0BA0

SIEMENS

Shown as type → full model number → maker. An example only, not current stock.
